

Manual Section Numbers

INTRODUCTION

You can manually set the segment number using the `segmentNumber` attribute. Asciihero will make sure to assign that number to the segment while it automatically numbers the rest.

Segment 1 (number 1).	1
Segment 2 (number 4).	4
Segment 3 (number 42).	42
Segment 4 (number 2).	2
Segment 5 (number 6).	6
Segment 6 (number 6).	6
Segment 7 (numbe 3).	3
