Attributes

INTRODUCTION

Asciihero has a notation of attributes. You can declare them at the top of your document using the <code>:asciihero-combat-attributes</code>: (AsciiDoc) attribute. Then they can be used one two ways.

Combat

You can declare these attributes for monsters in combat blocks.

GOBLIN SKILL 12 STAMINA 10
GOBLIN SKILL 4 STAMINA 3

Reference

Or you can reference them in text. For example, increase to tell players to decrease their DEXTERITY untill they have left the swamp.
