# Manual Section Numbers

# INTRODUCTION

You can manually set the segment number using the `segmentNumber` attribute. Asciihero will make sure to assign that number to the segment while it automatically numbers the rest.

**1**

Segment 1 (number 1).

**4**

Segment 2 (number 4).

**42**

Segment 3 (number 42).

**2**

Segment 4 (number 2).

**6**

Segment 5 (number 6).

**6**

Segment 6 (number 6).

**3**

Segment 7 (numbe 3).
