Input

INTRODUCTION

Asciihero is designed for printed media, so it can't ask for player input. But sometimes, you might want to prompt users to write things like, and tick a box to help remember something. For these purposes you can use the input macros.

1-3

1

☐ ☐ ☐ ☐

Every time you enter this segment tick one box. If all 4 boxes have been ticked, go to **2**.

You walk along the old wooden bring and reach the other side, turn to **3**.

2

TODO

3

On the other side of the bridge you see a large stone gate. In front of it a feeble looking wizard.

'Before you pass this gate, you must answer me these questions three!' he chants. Write you answer in the box below.
